About Me

I am an AI Developer at Deloitte, specializing in Generative AI. With a strong mathematical background and advanced training from a data science bootcamp, I design and deploy production-level AI solutions, leveraging technologies like Large Language Models (LLMs) and intelligent agents. I combine my expertise in AI engineering with ongoing research into emerging technologies to deliver innovative, cutting-edge solutions in the rapidly evolving AI landscape.

Work Experience

AI Engineer

Deloitte

April 2024 to Present

- **Developed and deployed an AI IT Ticket Assistant for a major Greek energy company:**
Designed and implemented the end-to-end solution from scratch, including integrations with company applications, deployment on Microsoft Teams, on Azure environment. Delivered a fully functional product in production with continuous support and improvements.
- **Developed and integrated advanced AI multi-agent systems** utilizing Generative AI and LLMs, with expertise in LangChain, RAG, and Vision LLMs, to automate and optimize enterprise workflows..
- **Led internal projects** to accelerate testing processes, delivering rapid end-to-end solutions that streamlined workflows and improved time-to-market.

Data Scientist

Koios Care, Advancing quality and efficiency of care for people living with Parkinson's Disease

November 2023 to December 2023 (1 month)

- **Research** on reverse **Geocoding tools & GIS sources APIs** on GCP and githubs that can determine type of places, neighborhood classification and socioeconomic activity
- **Metrics creation** to analyze time@home/social places, classification of transportation using longitudinal data from GPS devices

Data Engineer - Summer Internship

Alpha Bank

July 2023 to August 2023 (2 months)

- Management Information Systems Department (4 weeks)
- Financial Planning and Control Division Department (2 weeks)

Mathematics Teacher

Kyklos Spoudon

September 2021 to june 2023 (2 academic years)

- Providing Mentorship and Guidance in Small Classes of 5-8 Students
- Innovative Curriculum Design
- Parental Engagement and Communication

Education

Data Science Bootcamp

Big Blue Data Academy

September 2023 to December 2023

500 hours hands-on training program in Data Science and Machine Learning

- Git - Version Control, Command line, Python for Data Science
- Databases (SQL, MongoDB), APIs & Web Scraping
- EDA & Data Cleaning (Pandas, NumPy, Regex)
- Big Data & Natural Language Processing
- Machine Learning (Scikit Learn), Deep Learning (Keras)
- Visualizations (Power BI, Matplotlib, Seaborn, Dash, Plotly)
- Business Presentations & Communication Skills

Bachelor of Mathematics

National Kapodistrian University of Athens

September 2018 to January 2025

- *Grade: 7.3/10*
- 2 Specializations:

"Statistics and Operation Research" and "Applied and Computational Mathematics"

- Selected Modules:

Mathematical Analysis, Probability and Statistics, Multivariable Data Analysis, Algorithms, Data Structures, Numerical Analysis, AI.

Technical Skills

- Python, SQL, R
- Azure, Google Cloud Platform
- LangChain, LangGraph
- LLMs, Agents, RAG
- NLP, OCR, ML, Neural Networks
- Azure DevOps, CI/CD, AI Search, AI Foundry

Certifications

- Azure AI Engineer
- Introduction to LangGraph
- AI for Everyone by DeepLearning AI
- Azure Fundamentals

Projects

- Multimodal AI Assistant for Major Energy Company. End-to-End development on Azure Environment at production level with continuous support and improvements
- Agentic System for Data extraction from tables on handwritten pdfs and SQL databases.
- Chatbot in production for Major Public Company powered by LLMs for retrieving relevant information from a knowledgebase and actively Web Searching for summarization purposes deployed on AKS from Azure DevOps.
- Test Cases AI Generator from User Stories to speed up the process of testing.
- GPS trajectory and embedding creation to Characterize Behavioral Aspects for Health related quality of Life
- Customer Segmentation and Personality Analysis (Clustering)

Hobbies

- Padel
- Ski
- Escape Rooms
